REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose, either singly or in combination, an electro-optical system for determining optical flow generated by obstacles in relative motion with respect to a mobile unit comprising radiation emitter means, receiver means for converting the radiation reflected by objects into electrical signals and means for processing the signals generated by the receiver means, in which the receiver means comprise at least a vision sensor with receiver matrix configuration and in which the emitter means conform the radiation beam in such a way that the radiation reflected by objects and collected by the receiver means impacts at least a part of the receiver matrix configuration, and in which said processing means compute the optical flow only on the elements of the receiver matrix configuration that are impacted by the radiation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephone B. Allen whose telephone number is 571-272-2434. The examiner can normally be reached on M-F 08:30-5:00PM.
